[REDACTED] I have "staffed" [REDACTED] paper re the questionable use of our [REDACTED] more than once in operations. *JSB 11/1/6*

25X1A

The feeling is not new, as there was an exchange of papers on the subject in January this year.

PMD/PP Staff is aware of the problem, and, as I see it, is a matter for them to approach and to take action on if necessary from the standpoint of operational security.

I believe OL elements are absolved from any necessity to investigate this matter any further. The problem and question could be renewed by DDP elements at a future time.
